Yes, we are ignoring your lame attempt to take the heat off you, while at the same time tormenting Wabbit over her typo, thus taking the heat off you.

It's nice to know you're human. We're on our way; keep the pizza hot and the beers cold.

so what you're saying is even superhumans have their moments of... well in your case no one would ever dare call it weakness.

so if a worshipful follower were to ply you with offerings of the blue agave, you might look favorably upon that one?

with or without lime and salt? body shots available to preferred clientele...
